Objective

Enthusiastic and highly motivated front-end developer with a strong foundation in web development technologies, including HTML, CSS, JavaScript, and React. Seeking to leverage my coding skills and passion for creating responsive, user-friendly web interfaces in a challenging front-end developer role.

Skills

- **Web Technologies**: HTML5, CSS3, JavaScript (ES6+), React.js
- **Frameworks & Libraries**: Bootstrap, jQuery, Sass, TailwindCss
- **Version Control**: Git, GitHub
- **Responsive Design**: Media Queries, Flexbox, CSS Grid
- **Tools**: Visual Studio Code, Chrome Developer Tools,
- **Basic Back-End Knowledge**: Node.js, Express.js, MongoDB

Projects

1. Disney+Hotstar Clone
Description: Developed an online video streaming platform like hotstar with interactive features like image galleries , quantity selectors, and search functionality.
Technologies: React , React Query , Tailwind CSS , React router
GitHub Link: disney-hotstar-clone-liart.vercel.app

2. To-Do List App
Description: Created a simple to-do list application with functionalities to add, edit, and delete tasks. Implemented local storage to persist tasks between sessions.
Technologies: React , context api , TailwindCss
GitHub Link: todo-local-storage-mauve.vercel.app

Bachelor of B.Com Computer Application

Barkatullah University, Madhya Pradesh
Graduation Year: 2024

Institute
Geeksdoor

Coursework: Mern stack (MongoDB, Express, React, and NodeJs.)

Certifications

- **Responsive Web Design** – FreeCodeCamp
- **JavaScript Specialist Certification**– Infosys Springboard
